March 5-18

**Monday, March 5 at 12:00 p.m.**

**Pharmacology & Therapeutics Seminar**

Role of gating pore current as a cardiac channelopathy

**Mohamed Chahine**

Click [here](#) then scroll down for more info

**Monday, March 5, 12:30 – 1:30 p.m.**

**JGH Medical Grand Rounds**

Quality and outcomes in cardiovascular care at the Azrieli Heart Center – now and beyond

**Dr. Yves Langlois and Dr. Michael Goldfarb**

Click [here](#) for more info

**Tuesday, March 6, 12:00 – 1:00 p.m.**

**MUHC Medical Grand Rounds**

General Internal Medicine: Thrombosis and anticoagulant

**Dr. Vicky Tagalakis**

Click [here](#) then scroll down for more info

**Wednesday, March 7, 8:00 a.m. – 9:00 a.m.**

**Pediatric Medical Grand Rounds**

*Northern and Native Health and Sociocultural Consultation and Interpretation Services (SCIS) Joint Rounds*

The Indigenous cancer journey: The truth & how to reconcile

**Jason Pennington**

Click [here](#) for more info

**March 7-8**

**Ludmer Center Research Workshop**

***Decoding Mental States Using EEG***

With the goal of promoting interactions and future collaborations, this workshop will bring together investigators and trainees with complementary expertise in cognitive neuroscience, functional MRI, and EEG to discuss new ways in which EEG data

**Monday, March 5, 12:00 – 1:00 p.m.**

**Pediatric Research Seminar**

Translational control of skeletal muscle stem cell quiescence and self-renewal

**Colin Crist**

Click [here](#) for more info

**Tuesday, March 6, 12:00 – 1:00 p.m.**

**LDI Distinguished Lecture Series**

Translating the cancer genome one codon at a time and its therapeutic implications

**Davide Ruggero**

Click [here](#) then scroll down for more info

**Tuesday, March 6 at 4:00 p.m.**

**Killam Seminar Series**

The stable brain: Homeostatic control of neural function

**Graeme Davis**

Click [here](#) then scroll down for more info

**Wednesday, March 7 at 12:00 p.m.**

**BRaIN Seminar Series**

Connectivity and genetic architecture of mouse cortical circuits

**Dr. Euseok Kim**

Click [here](#) then scroll down for more info

**Wednesday, March 7, 12:00 – 1:00 p.m.**

**IDIGH WIP Lunch & Learn Seminar**

Role of the IL-1 family alarmins on the functional adaptation of TREG cells

**Fernando Alvarez**

Click [here](#) for more info

**Friday, March 9 at 11:00 a.m.**

**Physiology Seminar Series**

Cutting-edge circuit tracing strategies for understanding brain function

**Dr. Stuart Trenholm**

could be used to extract signals of relevance to the study of mental states

Click [here](#) for more info

**Monday, March 12 at 8:15 a.m.**

**Pathology Scientific Lecture Series**

Immunotherapy for liver cancer

**Dr. Chen Liu**

Click [here](#) for more info

**Monday, March 12 at 12:00 p.m.**

**Pharmacology & Therapeutics Seminar**

The molecular basis of neuronal dysfunction in glaucoma: novel insights

**Adriana Di Polo**

Click [here](#) then scroll down for more info

**Monday, March 12, 12:00 – 1:00 p.m.**

**Pediatric Seminar Series**

The derivation and utility of intestinal organoids generated from human pluripotent stem cells

**Jon Draper**

Click [here](#) for more info

**Monday, March 12, 4:00 – 5:00 p.m.**

**Epidemiology Seminar**

Usage and accuracy of medication data from Health Information Exchange in Quebec, Canada

**Aude Motulsky**

Click [here](#) for more info

**Tuesday, March 13, 12:00 – 1:00 p.m.**

**MUHC Medical Grand Rounds**

Evolving acute stroke treatment: The art of patient and therapy selection

**Dr. Lucy Vieira and Dr. Aimen Moussaddy**

Click [here](#) then scroll down for more info

**Tuesday, March 13, 3:30 – 4:30 p.m.**

**Biostatistics Seminar**

Multi-state approaches to unmask and repair survival biases in epidemiology

**Martin Wolkewitz**

Click [here](#) for more info

**Wednesday, March 14 at 11:30 a.m.**

**Anatomy and Cell Biology Seminar Series**

Divergent tissue-remodeling strategies define epithelial cell branching morphogenesis and neoplastic invasion programs

**Dr. Stephen Weiss**

Click [here](#) for more info

**Wednesday, March 14, 12:30 – 2:00 p.m.**

Click [here](#) then scroll down for more info

**Friday, March 9, 12:00 – 1:00 p.m.**

**LDI Cancer Seminar**

Genomic alterations in residual ovarian cancer after neoadjuvant chemotherapy and their impact on survival

**David Oceau and Fan Huang**

Click [here](#) then scroll down for more info

**Monday, March 12, 12:00 – 1:00 p.m.**

**LDI Molecular and Regenerative Medicine Seminar**

Senescence and age-related vascular diseases

**Dr. Eric Thorin**

Click [here](#) then scroll down for more info

**Monday, March 12, 12:30 – 1:30 p.m.**

**JGH Medical Grand Rounds**

Peripheral Artery Disease (PAD): A global approach to a multi-faceted disease

**Dr. Andre Roussin**

Click [here](#) then scroll down for more info

**Tuesday, March 13, 12:00 – 1:00 p.m.**

**LDI Epidemiology Seminar**

Upcoming legalization of cannabis: Should we worry?

**Jennifer O'Loughlin**

Click [here](#) then scroll down for more info

**Tuesday, March 13, 3:00 – 5:00 p.m.**

**McGill Qualitative Health Research Group (MQHRG) Meeting**

Dis/Articulating conceptions of 'voice' in qualitative inquiry

**Gail Teachman**

Click [here](#) for more info

**Tuesday, March 13, 6:00 – 8:00 p.m.**

**HBHL Trainee Get-Together**

**Keynote Speaker: Dr. Robert Zatorre**

Click [here](#) for more info

**Wednesday, March 14, 8:00 a.m. – 9:00 a.m.**

**Pediatric Medical Grand Rounds**

Role modeling - Helping you make the implicit explicit

**Robert Sternszus**

Click [here](#) for more info

**Wednesday, March 14 at 12:00 p.m.**

**IDIGH Program Seminar Series**

**Institute for Health and Social Policy**

Evidence to Policy

**Leah Marian McClimans**Click [here](#) then scroll down for more info**Wednesday, March 14, 3:00 – 4:00 p.m.****LDI Psychosocial Seminar**

The pathophysiology of premenstrual dysphoric disorder: Biological and cultural factors

**Vi Nguyen**Click [here](#) then scroll down for more info**Wednesday, March 14 at 4:30 p.m.****Social Studies of Medicine Book Launch**Celebrating the publication of the Palgrave Handbook of the History of Surgery with commentary by editor, **Thomas Schlich and contributing authors.**Click [here](#) for more info**Thursday, March 15, 12:30 - 2:00 p.m.****Family Medicine Research Seminar**

The Quebec CoMPAS + program: Improving primary care and health services in Quebec

**Dr. Marie-Pascale Pomey**Click [here](#) for more info**Friday, March 16, 9:30 a.m. – 12:00 p.m.****SEDE Safer Spaces Workshop***Race and Cultural Identity:* This workshop addresses the challenges of fostering diversity-receptive cultural attitudes, reducing structural barriers in University life, and building and maintaining respectful spaces for interpersonal engagement.Click [here](#) then scroll down for more info**Friday, March 16, 1:00 – 2:00 p.m.****Bioengineering & Biomedical Engineering Research Seminar**

Label-free imaging of thick specimens using gradient light interference microscopy (GLIM)

**Gabriel Popescu**Click [here](#) for more info

Self-reactive T cells: Many shades of gray

**Heather Melichar**Click [here](#) for more info**Wednesday, March 14, 2:00 – 4:30 p.m.****SEDE Safer Spaces Workshop***Sexual Orientation and Gender Identity:* An interactive workshop for faculty, staff, and graduate students, this session provides a concise introduction to sexual and gender diversity.**This workshop is based on the Safe Space workshop first designed and implemented by the McGill Equity Subcommittee on Queer People.**Click [here](#) then scroll down for more info**Thursday, March 15, 11:30 a.m. – 12:30 p.m.****Infection & Immunity Seminar Series**

A new link between infection, autoimmunity and Parkinson's disease

**Dr. Samantha Gruenheid**Click [here](#) then scroll down for more info**Thursday, March 15, 5:00 – 9:30 p.m.****Comparative Healthcare Systems Program (CHSP) Conference****Global Mental Health**

This is an important and growing issue for both developed and underdeveloped countries around the World. Globally, over 450 million people are affected by mental illness.

Click [here](#) for more info**Friday, March 16 at 11:00 a.m.****Physiology Seminar Series**

Peptide major histocompatibility complex-based nanomedicines for the treatment of autoimmune disease.

**Dr. Pere Santamaria**Click [here](#) then scroll down for more info

Should you have an event to include in Med Events, please send the **web link** with all details (date, time, location, event title and contact information) at least 3 weeks prior to the event.

Note: due to the large volume of requests that we receive, events will be included on a first-come, first-served basis.

Send requests to: [med-events.med@mcgill.ca](mailto:med-events.med@mcgill.ca)
