June 4-17

Monday, June 4, 12:00 - 1:00 p.m.

RI-MUHC Pediatric Research Seminar

Neural crest-placode cell interactions during gangliogenesis

Lisa Taneyhill, PhD

Click [here](#) for more info

Monday, June 4 at 1:00 p.m.

Feindel Brain Imaging Lecture Series

Neuroimaging pathways to addiction

Dr. Marco Leyton

Click [here](#) then scroll down for more info

Monday, June 4 at 4:00 p.m.

Bioengineering & Biomedical Engineering Research Seminar

Emerging anti-cancer applications for porphyrin-phospholipid liposomes

Dr. Jonathan Lovell

Click [here](#) for more info

Tuesday, June 5, 12:00 - 1:00 p.m.

Lady Davis Institute Distinguished Lecture Series

Metabolic dysregulation in cancer and other diseases

Dr. Ralph DeBerardinis

Click [here](#) for more info

Tuesday, June 5, 12:00 - 1:00 p.m.

MUHC Medical Grand Rounds

What to expect (your immune system to do) when you are expecting

Dr. Geneviève Genest

Click [here](#) then scroll down for more info

Tuesday, June 5, 6:00 p.m. - 9:00 p.m.

Faculty of Science/IEEE Montreal Keynote Lecture

Monday, June 4 at 12:00 p.m.

BRaIN Seminar Series

Of mice, rats and men: Assessing and correcting dysfunction in models of fragile X syndrome

Dr. David Wyllie

Click [here](#) then scroll down for more info

Monday, June 4, 12:30 - 1:30 p.m.

JGH Medical Grand Rounds

Acute myeloid leukemia: New tools in the fight against a deadly foe

Dr. Sarit Assouline & Dr. François Mercier

Click [here](#) then scroll down for more info

June 4-15

Exhibition at the Osler Library of the History of Medicine

Musei Fabrica: Cloth and Stitch inspired by the Maude Abbott Medical Museum

Artifacts from the Maude Abbott Medical Museum provided inspiration for Text'art, a group of six Montreal fibre artists to create new works of art, on view at the Osler Library of the History of Medicine.

Tuesday, June 5, 12:00 - 1:00 p.m.

Palliative Care McGill Research Rounds

What might happen to a culture when dying becomes optional? An anthropological perspective on the assisted dying debate

Dr. Naomi Richards

Click [here](#) for more info

Tuesday, June 5, 12:30 - 2:30 p.m.

Neuro Special Seminar

Can human iPSC based models really model neurological disease?

Prof. Siddharthan Chandran

Click [here](#) for more info

The tools that helped establish interventional cardiology and ophthalmology from the perspective of an innovator and entrepreneur

Dr. Leonard Pinchuk

Click [here](#) for more info

Wednesday, June 6, 12:00 - 1:00 p.m.

IDIGH Program Seminar Series

Of mice and humans: Fundamental mechanisms of tissue-specific antifungal immunity

Dr. Michail Lionakis

Click [here](#) for more info

June 6-7

Visiting Speakers Program in Oncology

Targeted therapies for treatment of acute myeloid leukemia

Dr. Eytan Stein

Click [here](#) for more info

Monday, June 11, 8:15 a.m. - 8:00 p.m.

2nd McGill University Research Centre on Complex Traits (MRCCT) Symposium

Immunogenetics of infectious and inflammatory diseases: Building bridges between medical and fundamental research

This second edition is a one-day event focused on enhancing the links between fundamental and clinical investigators.

Click [here](#) for more info

Monday, June 11, 12:30 - 1:30 p.m.

JGH Medical Grand Rounds

Transformational targeted and immune therapies in melanoma and beyond

Dr. Wilson Miller

Click [here](#) then scroll down for more info

Tuesday, June 12, 8:00 a.m. - 1:00 p.m.

Women In Bio (WIB) – Greater Montreal Half-Day Conference

Disruptive technologies in the life sciences and healthcare

Speakers and panelists will include experts in blockchain, AI, deep learning, and ethics, entrepreneurs in the AI sector, and professionals in product development and support. This conference will be interesting for people involved in product development, clinical and basic research studies, pharma, and finance.

Click [here](#) for more info

Wednesday, June 13, 1:30 - 4:00 p.m.

2018 JGH Surgical Robotics Conference

Wednesday, June 6, 8:00 a.m. - 9:00 a.m.

Pediatric Medical Grand Rounds

48th Annual Alton Goldbloom Lecture

Interventional genomics: A new era on the horizon

Dr. Ronald D. Cohn

Click [here](#) for more info

Wednesday, June 6 at 6:00 p.m.

Biennial Goodman Cancer Research Gala

This year, the Gala, one of the largest and most prestigious events on Montreal's social calendar, supports the Rosalind and Morris Goodman Cancer Research Centre and celebrates its commitment to the **Lung Cancer Network**.

Click [here](#) for more info

Thursday, June 7, 4:00 - 5:30 p.m.

Centre for MedEd & Faculty Development Office Medical Education Rounds

From orchestras to operating rooms: Professional culture and learning

Dr. Christopher Watling

Click [here](#) for more info

Monday, June 11 at 8:15 a.m.

Pathology Scientific Lecture Series

Translating genomic discoveries into clinical practice: Role of molecular testing in precision medicine

Dr. Liang Cheng

Click [here](#) for more info

June 11-14

Summer Program in Social and Cultural

Psychiatry Workshop

Clinical Neuroscience

This workshop will provide an overview of current controversies surrounding cognitive neuroscience and the implications of recent advances in research for psychiatry, education, bioethics and health policy.

Thursday, June 14, 9:00 a.m. - 4:00 p.m.

Cedars Men's Health Awareness Day

Free men's health exam including health questionnaire, blood pressure, cholesterol checks and prostate exam.

Click [here](#) for more info

June 14-15

Leon Glass and Michael C. Mackey Diamond Symposium

This Symposium will celebrate the outstanding careers of these two leaders in mathematical biology on the occasion of their 75th birthdays and will bring together an international cohort of trainees and colleagues to share recent research developments and future prospects in non-linear mathematics and medicine.

Click [here](#) for more info

June 15-17

International Symposium on Genomics and Health

Presented by the Gairdner Foundation and McGill University. Organizers: Drs. Simon Gravel and Mark Lathrop.

Closing the genomics research gap

A symposium about inequalities in genomics research and health (and what to do about them). The goal is to bring together leaders in medical genomics, statistical genetics and community engagement to address these questions and examine concrete strategies to ensure that all can benefit from genomics research.
