September 17-30

CANCELLED Monday, September 17, 11:00 a.m. - 12:00 p.m.

Biochemistry Seminar

Specification of human germline cell

Di Chen, PhD

Click [here](#) for more info

Monday, September 17, 12:00 - 1:00 p.m.

RI-MUHC Pediatric Research Seminar

Optimization of paediatric pain assessment in the clinical setting using quantitative neurophysiological measures to avoid chronic post-surgical pain

Catherine E. Ferland, PhD

Click [here](#) for more info

Tuesday, September 18, 9:00 a.m. - 10:00 a.m.

The Neuro Special Seminar

What is the role of ependymal cells in brain injury & disease?

Jo Anne Stratton, PhD

Click [here](#) for more info

Tuesday, September 18, 3:30 - 4:30 p.m.

Biostatistics Seminar

Deep learning and conversational agents

Laurent Charlin, PhD

Click [here](#) for more info

Wednesday, September 19, 8:00 a.m. - 9:00 a.m.

Pediatric Medical Grand Rounds

Management of febrile young infants: New data, new approaches

Dr. Brett Burstein

Click [here](#) then scroll down for more info

Wednesday, September 19, 12:00 - 1:00 p.m.

Monday, September 17, 11:00 a.m. - 12:00 p.m.

Tour of the Steinberg Centre for Simulation and Interactive Learning

Ever wonder how doctors, nurses, physiotherapists, and occupational therapists learn and practice procedures and techniques? Come for an exciting tour of the Centre to see how medical simulation is used to teach and enhance the skills of health care professionals.

Click [here](#) for more info

Monday, September 17, 3:00 - 4:00 p.m.

Biostatistics Seminar

The central limit theorem, testing for normality and other misleading ideas

Frank E. Harrell Jr., PhD

Click [here](#) for more info

Tuesday, September 18, 12:00 - 1:00 p.m.

MUHC Medical Grand Rounds

Physician Compensation in Quebec 2006 to 2015: What happened and what can we learn from it?

Dr. Damien Contandriopoulos

Click [here](#) then scroll down for more info

Tuesday, September 18, 6:00 p.m. - 9:00 p.m.

iPSC Core Facility/Réseau Parkinson Quebec: A Night of Knowledge and Networking at The Neuro

Parkinson's disease: Our common fight

Linda Berard, Chelsie Kadgien & Lucie Lachance

Click [here](#) for more info

Wednesday, September 19 at 11:30 a.m.

Anatomy & Cell Biology Seminar

Developmental regulation of cytokinesis incompleteness and stable actomyosin rings in *C. elegans* germ cells

**McGill Research Centre on Complex Traits
Seminar Series**

Neutrophil heterogeneity in health and disease

Dr. Nienke Vriskoop

Click [here](#) for more info

**Wednesday, September 19, 12:00 - 1:00
p.m.**

**CPD Wednesday E-Learning Series (WELS):
Webinar only**

Time dependent effects of exercise on memory:
Implications for sports, education and rehabilitation

Dr. Marc Roig

Click [here](#) then scroll down for more info

Thursday, September 20 at 6:30 p.m.

**CPD Thursday Evening Learning Series (TELS):
Face-to-Face and Webinar**

Physical Medicine & Rehabilitation

Peripheral joint pain: When to refer?

Dr. Elizabeth Hazel

Dermatology

Eczema

Dr. Kevin Pehr

**Monday, September 24, 9:00 a.m. - 10:00
a.m.**

Meakins-Christie Research Seminar Series

The role of interferon-gamma and ILC2s in susceptibility to influenza A infection

Dr. Jean-Claude Labbé

Click [here](#) for more info

**Wednesday, September 19, 12:00 - 1:00
p.m.**

IDIGH Program Seminar

Bronchopneumonia in calves: using diagnostic tests for rationalization of antimicrobial use

Dr. Sébastien Buczinski

Click [here](#) for more info

**Thursday, September 20, 11:30 a.m. -
12:30 p.m.**

Infection & Immunity Seminar Series

Post-genomic approaches to study protozoan parasites

Dr. Christopher Prada

Click [here](#) then scroll down for more info

**Friday, September 21, 9:00 a.m. - 4:00
p.m.**

**McGill Research Centre for Studies in Aging
(MCSA) Open House**

How good is your health?

Click [here](#) for more info

**Friday, September 21 at 11:00 a.m.
Physiology Seminar**

A new model to study the emerging role of intestinal inflammation in Parkinson's Disease

Dr. Samantha Gruenheid

Click [here](#) for more info

**Friday, September 21, 1:00 - 2:00 p.m.
Bioengineering & Biomedical Engineering
Research Seminar**

Electromagnetic medical technologies and the dielectric properties of tissues

Dr. Emily Porter

Click [here](#) for more info

September 23-26

**International Congress on Personalized Health
Care 2018**

This important international conference will gather professionals and decision-makers interested in discussing the major stakes related to personalized medicine and health care. Based on the presence of renowned speakers and supported by a call for papers process designed to take the pulse of the international community, the program proposes four days of discussion, training and networking.
