October 9-21

Tuesday, October 9 at 12:00 p.m.

Centre for Outcomes Research and Evaluation (CORE) Guest Speaker Seminar

Randomized trials versus “real world” data? Why do they differ?

Dr. Claire Bombardier

Click [here](#) for more info

Wednesday, October 10, 8:00 a.m. - 9:00 a.m.

Pediatric Medical Grand Rounds

Jordan's Principle: Ending inequalities in First Nations Children's Services

Cindy Blackstock, PhD

Click [here](#) then scroll down for more info

Wednesday, October 10, 12:00 - 1:00 p.m.

CPD Wednesday E-Learning Series (WELS):

Webinar only

Clinical Immunology and Allergy

Oral allergy syndrome

Dr. Marilyn Desjardins

Click [here](#) then scroll down for more info

Thursday, October 11 at 6:30 p.m.

CPD Thursday Evening Learning Series (TELS):

Face-to-Face and Webinar

Infectious Diseases

Arboviruses in Americas - Zika and beyond

Dr. Matthew Thomas Oughton

Update on adult vaccination

Dr. Brian Ward

Click [here](#) then scroll down for more info

Friday, October 12, 3:00 - 4:30 p.m.

McGill International TB Centre/RECRU Seminar

The incubation period of TB

Dr. Marcel Behr

Tuesday, October 9, 12:00 - 1:00 p.m.

MUHC Medical Grand Rounds

Building resiliency among health professionals

When the ship is taking on water: Feeling better while paddling harder

Dr. Steven Grover

Click [here](#) then scroll down for more info

Tuesday, October 9, 3:30 - 4:30 p.m.

Biostatistics Seminar

Efficient sampling for Gaussian linear regression with arbitrary priors

Hedibert F. Lopes, PhD

Click [here](#) for more info

Wednesday, October 10 at 11:30 a.m.

Anatomy & Cell Biology Seminar Series

Predicting and tuning the course of microbial evolution

Dr. Adrian Serohijos

Click [here](#) for more info

Thursday, October 11, 6:00 p.m. - 7:00 p.m.

Cutting Edge Lecture in Science

Why we get old and die, and what to do about it

Dr. Henry Olders

Click [here](#) for more info

Friday, October 12 at 11:00 a.m.

Physiology Seminar Series

Automated particle tracking with applications to mucosal immunology and cytoplasmic crowding

Dr. Jay Newby

Click [here](#) then scroll down for more info

Saturday, October 13 at 7:30 a.m.

2nd Annual Symposium on Upper Gastro-Intestinal Cancers

TST and/or chest X-ray for investigating of household contacts – A cluster randomized factorial design trial

Dr. Dick Menzies

Click [here](#) for more info

Monday, October 15, 8:00 a.m. - 12:00 p.m.

Steinberg Centre for Simulation & Interactive Learning Free Workshop

Feedback and debriefing in simulation-based education: From principles to practice

This practical workshop will provide participants with a brief overview of the relevant educational background, followed by opportunities to practice debriefing skills with experienced educators in a safe learning environment.

Click [here](#) for more info

Monday, October 15 at 12:00 p.m.

Pharmacology & Therapeutics Seminar Series

Structural biology of TGF-beta family signaling proteins – new insights into mechanism to novel therapies for cancer and fibrosis

Dr. Andrew Hinck

Click [here](#) then scroll down for more info

Monday, October 15, 2:30 - 3:30 p.m.

Biostatistics Seminar

Moving from evidence-based medicine to personalized medicine: Understanding heterogeneous treatment effects in the era of patient-centered care

Dr. David M. Kent

Click [here](#) for more info

Tuesday, October 16, 12:00 - 1:00 p.m.

MUHC Medical Grand Rounds

The "Crisis" in health research, and its implications for research, policy and practice

Dr. Nicholas King

Click [here](#) then scroll down for more info

Wednesday, October 17, 8:00 a.m. - 9:00 a.m.

Pediatric Medical Grand Rounds

Pediatric resuscitation-state of the art... From the Ivory Tower to our own backyards

Dr. Vinay M. Nadkarni

Click [here](#) then scroll down for more info

Wednesday, October 17 at 12:00 p.m.

SPOT Research Seminar in Rehabilitation Science

Multidisciplinary management of esophago-gastric carcinoma

Click [here](#) for more info

Sunday, October 14, 8:30 a.m. - 12:30 p.m.

Cedars Run/Walk for Ovarian Cancer benefiting the DOvEE Project

Join us this year in celebration, remembrance and support of ovarian cancer fighters everywhere. The DOvEE Project is committed to raising awareness of Ovarian & Endometrial cancers, advocating for early diagnostic testing, and supporting ovarian cancer patients and their families.

Click [here](#) then scroll down for more info

Monday, October 15, 9:00 a.m. - 10:00 a.m.

Meakins-Christie Research Seminar

Iron dependent targets for host-directed therapy of TB

Alan Sher, PhD

Click [here](#) for more info

Monday, October 15 at 1:00 p.m.

Feindel Brain Imaging Lecture Series

Detection and assessment of white matter hyperintensities in aging and neurodegenerative disease population

Mahsa Dadar

Click [here](#) then scroll down for more info

Monday, October 15, 4:00 - 5:00 p.m.

Epidemiology Seminar Series

Banning P-value use, or misuse?

Dr. Sonia Hernandez Diaz

Click [here](#) for more info

Tuesday, October 16, 6:30 p.m. - 8:30 p.m.

HBHL-SKILLSETS Workshop

Small Talk, Big Impact: Developing an elevator pitch for your neuroscience research

What do you say when a researcher approaches you at a conference and asks what you study? Or, when a potential employer asks you to summarize your Master's/PhD project during a job interview? In this workshop, you will learn how to create an elevator pitch that clearly explains your research and get others excited about your work in under 2 minutes.

International Health Regulations Compliance in India: The Politics of Global Health Security

Srikanth Reddy, PhD

Click [here](#) then scroll down for more info

Wednesday, October 17 at 4:30 p.m.

Social Studies of Medicine Seminar Series

Laboratory humanity: the defense of medical research in the United States, 1908-1914

Dr. Rob Boddice

Click [here](#) for more info

Thursday, October 18, 12:00 - 1:00 p.m.

14th Annual Flanders Family Visiting Professor in Medical Simulation

Resuscitation: Past, present and future

Dr. Vinay M. Nadkarni

Click [here](#) for more info

Thursday, October 18 at 6:30 p.m.

The Neuro: A Brilliant Night 2018

Founded and organized by a group of volunteers who have all been touched by brain cancer; its mission is to educate and raise awareness for brain cancer and the importance of this research at The Neuro.

October 18-19

3rd International Conference on Stem Cells, Development and Cancer

Connecting new ideas in developmental, adult and cancer stem cell biology

This conference provides you an exceptional opportunity to network with leading developmental, stem cell and cancer biologists from Canada, Europe and the U.S.

Click [here](#) for more info

Friday, October 19 at 11:00 a.m.

Physiology Seminar Series

Mechanisms that underlie the neural code for space

Dr. Mark Brandon

Click [here](#) then scroll down for more info

Wednesday, October 17, 12:00 - 1:00 p.m.

CPD Wednesday E-Learning Series (WELS):

Webinar only

Dermatology

Dangerous rashes not to miss

Dr. Elena Netchiporouk

Click [here](#) then scroll down for more info

Thursday, October 18, 7:30 a.m. - 8:30 a.m.

14th Annual Flanders Family Visiting Professor in Medical Simulation

Combined Surgical and Anesthesia Grand Rounds

Simulation and systems at the cutting edge... What next?

Dr. Vinay M. Nadkarni

Click [here](#) for more info

Thursday, October 18 at 6:30 p.m.

CPD Thursday Evening Learning Series (TELS): Face-to-Face and Webinar

Nephrology

Approach to chronic kidney disease – Indications for referral

Dr. Catherine Weber

Adults hematuria - Where it starts?

Dr. Mélanie Aubé-Peterkin

Click [here](#) then scroll down for more info

Friday, October 19, 9:00 a.m. - 5:30 p.m.

Institute for Health and Social Policy Workshop

Relational autonomy in fiction

David Collins, Rebekah Johnston, Sam Shpall,

Natalie Stoljar, Andrea Westlund

Click [here](#) for more info

Friday, October 19 at 10:30 a.m.

Infectious Diseases and Immunity in Global Health (IDIGH) Program Symposium

From molecules to healthcare

The objective of this Symposium is to provide a platform for all participants to interact and exchange research ideas in the area of infectious diseases, immunity and global health.
